We think he would have been proud of this compendium of work and we know he was always grateful to YOU, our members, for supporting his vision and our objective of creating a platform of information, to encourage open, civil debate on climate and related public policies that is **evidence-based** and rational.

Prof. Mörner was instrumental in setting up the Porto Conference in September of 2018, which ultimately led to the development of CLINTEL. He also extended a personal invitation to Friends of Science to attend. We gathered many excellent interviews and videos in Porto. Prof. Mörner passed away Oct. 16, 2020. You can see him presenting the work of Don Easterbrook at Porto.
