Friends of Science 14th Annual Event

“Climate Dogma Exposed: Carbon Taxes Can’t Stop Nature.... Can Kill the Economy”

Please join us on May 9th for our Friends of Science annual event. We are pleased to announce a two part event – Policy and Science. Deadline to order tickets is **May 1st, 2017**.

For the Policy – Robert Lyman, Ottawa energy consultant and former public servant will examine the question “*Can Canada Survive Climate Change POLICY?*” In essence, the Trudeau government's goal is to reduce Canada's GHG emissions from 733 megatons (Mt) in 2014 (the most recent year for which data is available) to 516 Mt in 2030 (i.e. 13 years from now) and 147 Mt in 2050 (i.e. 33 years from now). Most provincial governments support these goals. If Canada follows through, the economy would be reduced to that of Chad.

For the Science – Steve Goreham, MS/EE, MBA, author and speaker will discuss “*Climate Science and the Myths of Renewable Energy.*” Today’s society lives in the grip of a madness—the belief that humans are causing dangerous climate change. Melting ice caps, rising oceans, stronger storms, droughts and floods, and species extinction are blamed on greenhouse gas emissions from our industry. But contrary to what your political leader, professor, and newspaper tell you, global warming is dominated by natural factors. As a result, thousands of climate and energy laws across hundreds of nations, all summed together, are not going to have a measurable effect on Earth’s temperatures.

Doors open at 5:45 pm. Event opens with a buffet dinner (included with ticket) and cash bar during the “mix 'n mingle” from 6:00-7:00 pm followed by opening messages and our speakers.

DATE: **May 9th, 2017**

LOCATION: **Red and White Club, McMahan**
1833 Crowchild Trail NW
Calgary, Alberta

COST: **\$45 Members, \$55 Non-members, Table 8 \$360, Students \$30**
Purchase online through Eventbrite:
<https://climate-dogma-exposed.eventbrite.ca> **by May 1st**

Parking is available on the East side of McMahan Stadium and is free after 6:00pm or take the LRT

If you have any questions, please email: contact@friendsofscience.org or call 1-888-789-9597 x2
